

AFRICAN PORTS CONFERENCE · COPAF 2026

THANK YOU ALL

Dear participants, speakers and partners,

From 19 to 21 October 2026, Casablanca brought together African port authorities around a theme that shapes the future of our ports: the African Smart Port, with AI and cybersecurity driving performance.

I would like to thank you warmly. Your presence, the quality of your exchanges and your commitment gave these three days their full meaning. Thank you to the port authorities who came from Nigeria, Sierra Leone, Togo and Côte d'Ivoire, to AGPAOC, to our speakers, and to the whole team who made this conference possible.

The conversation does not stop here. Let us stay connected, share our progress and build together the African ports of tomorrow.

With all my gratitude,

Dr William ODAH

Director General, CRF Perfection
Director of the COPAF Organising Committee
